To Whom It May Concern:

We have been working with Jay Nadler at Marathon Benefits since the inception of Run Digital back in August 2005. At that time we wanted to implement a benefit package for our employees. Jay was able to get us going in the right direction as a new company.

Even more impressive and helpful was his willingness to spend time with our employees going through the benefit plan and answering any questions they had. When our policy came up for renewal Jay and his staff spent considerable time determining whether or not the plan we had in place was best for us moving forward as a company. We did some research and comparative shopping for other plans that might have been a better fit. This level of service for a new company, trying to be as efficient as possible, is invaluable.

In addition to Marathon Benefits supporting our benefit plan was the introduction of the Health Spending Account. Because of Jay's wealth of knowledge in the area and a willingness to implement some value added features for us, we introduced a Health Spending Account to our employees. Many of the staff are enjoying using the program.

We also had the opportunity to implement a RRSP contribution plan for the owners of Run Digital. Once again Jay's expertise to get us rolling was helpful. We were able to get started immediately and our plan gives us flexibility moving forward.

In conclusion, Jay and the staff at Marathon Benefits have proved to be more than just a benefit plan supplier. They have been there to assist us as we grow and expand. Their knowledge and support have been appreciated and we look forward to our continued relationship with them.

Yours sincerely,

Salvatore Di Franco
